```javascript
// This function clears all the values
function clearScreen(){
    document.getElementById("result").value=" ";
}

//Thios function display values
function display(value){
    document.getElementById("result").value += value;
}

//This function evaluates the statement and return the result
function calculate(){
    var p = document.getElementById("result").value;
    var q = eval(p);
    document.getElementById("result").value = q;
}
```
